El Pasoans Fighting Hunger - Food FARMacy

The newest program developed by El Pasoans Fighting Hunger, was designed to allow Borderland residents with certain health conditions (heart disease, diabetes, high blood pressure) to receive the healthy food their condition requires. Patients will receive a food prescription from their doctors, and they will be able to fill that prescription at the new facility. Adults, seniors, children, and low-income residents can benefit from a healthy selection of fruits and vegetables made more readily available at the facility, including those with special diets prescribed by a medical professional.
